Harold: (5/1/77): In re your 4/27 to Les Whitten, there was at least one FBI agent present at Oswald's arrest. The first time I came across the reference was in O'Toole's book, at 231-32. According to Officer Westbrook, FBI Agent Robert Barrett showed up at the Tippit murder scene (7H111) He drove with Westbrook to the Theater where Oswald was arrested. Gerald Hill remembered him there (7H51) and by his own account he "assisted in the apprehension of Oswald." (26H497) I know of no other references to other FBI agents at that scene. There was at least one (Pinkston) at the TSBD.

P.S.--My typewriter is in the shop, so I am temporarily using a broken down little portable of Duane's.
